

DevOps is a Mindset not a Role!

Daniel Schniepp

What's wrong and how we can fix it.

About me

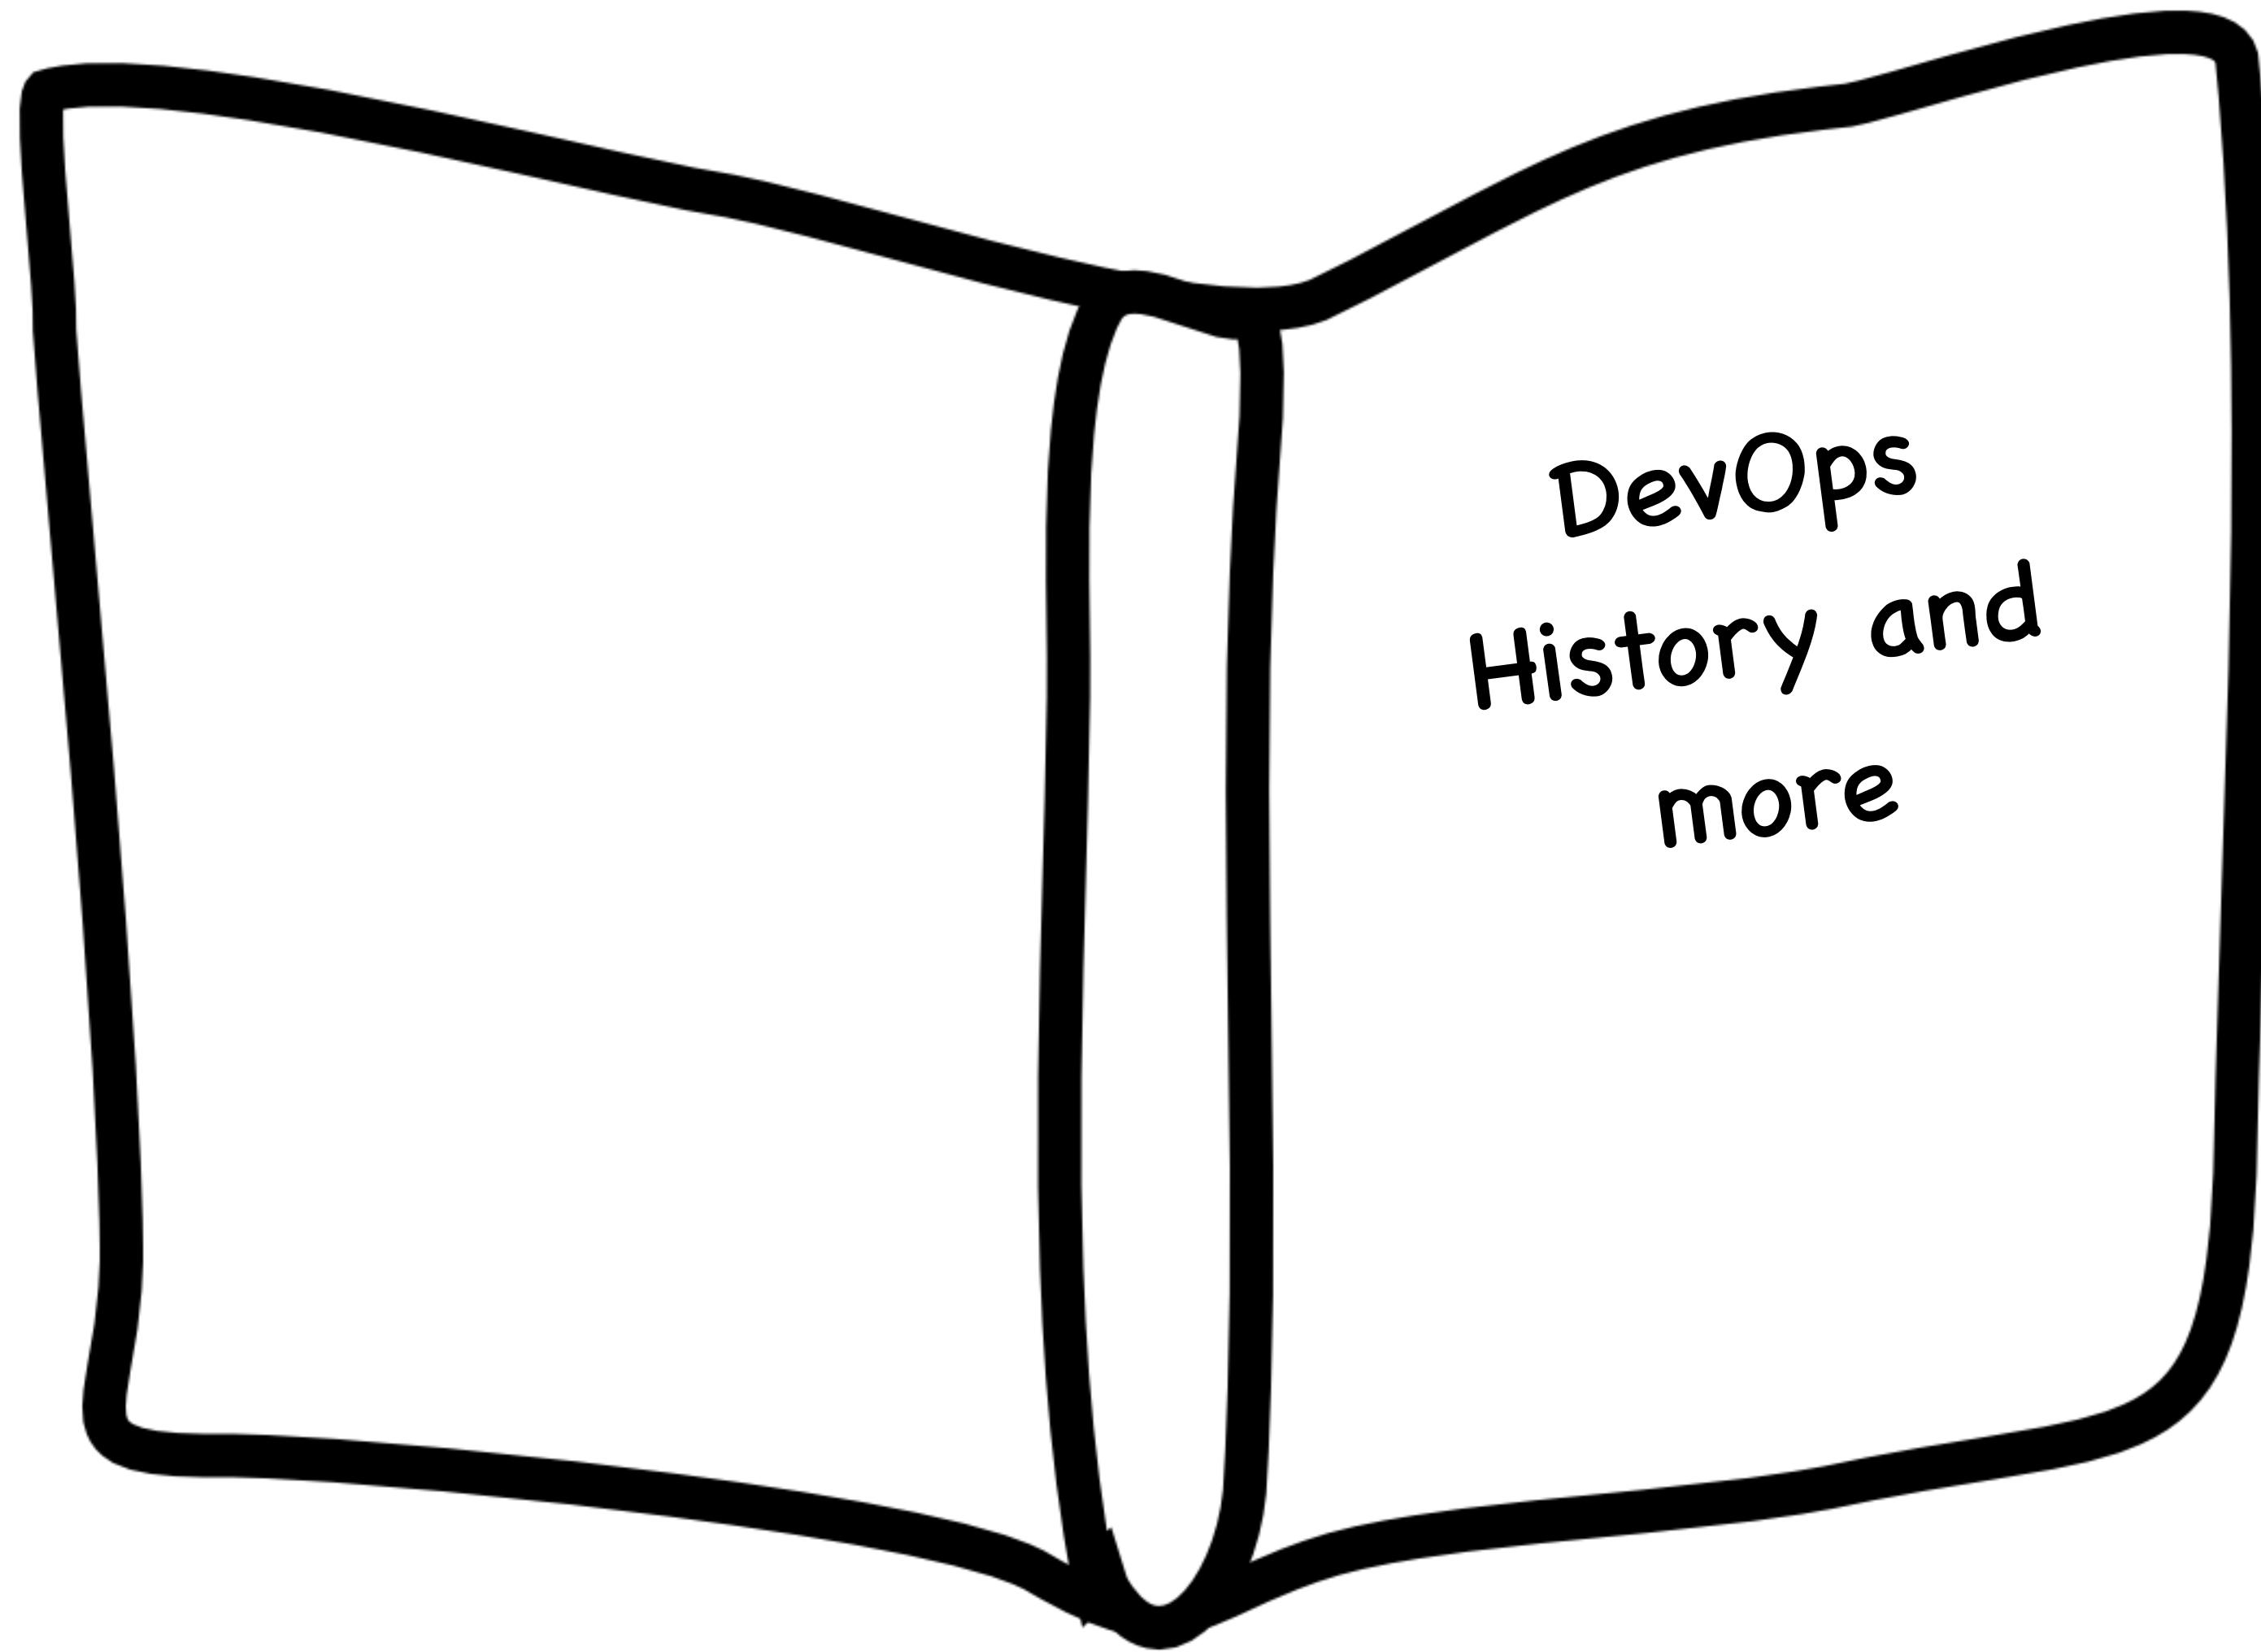

Senior Staff Engineer @ Mercedes-Benz Mobility AG

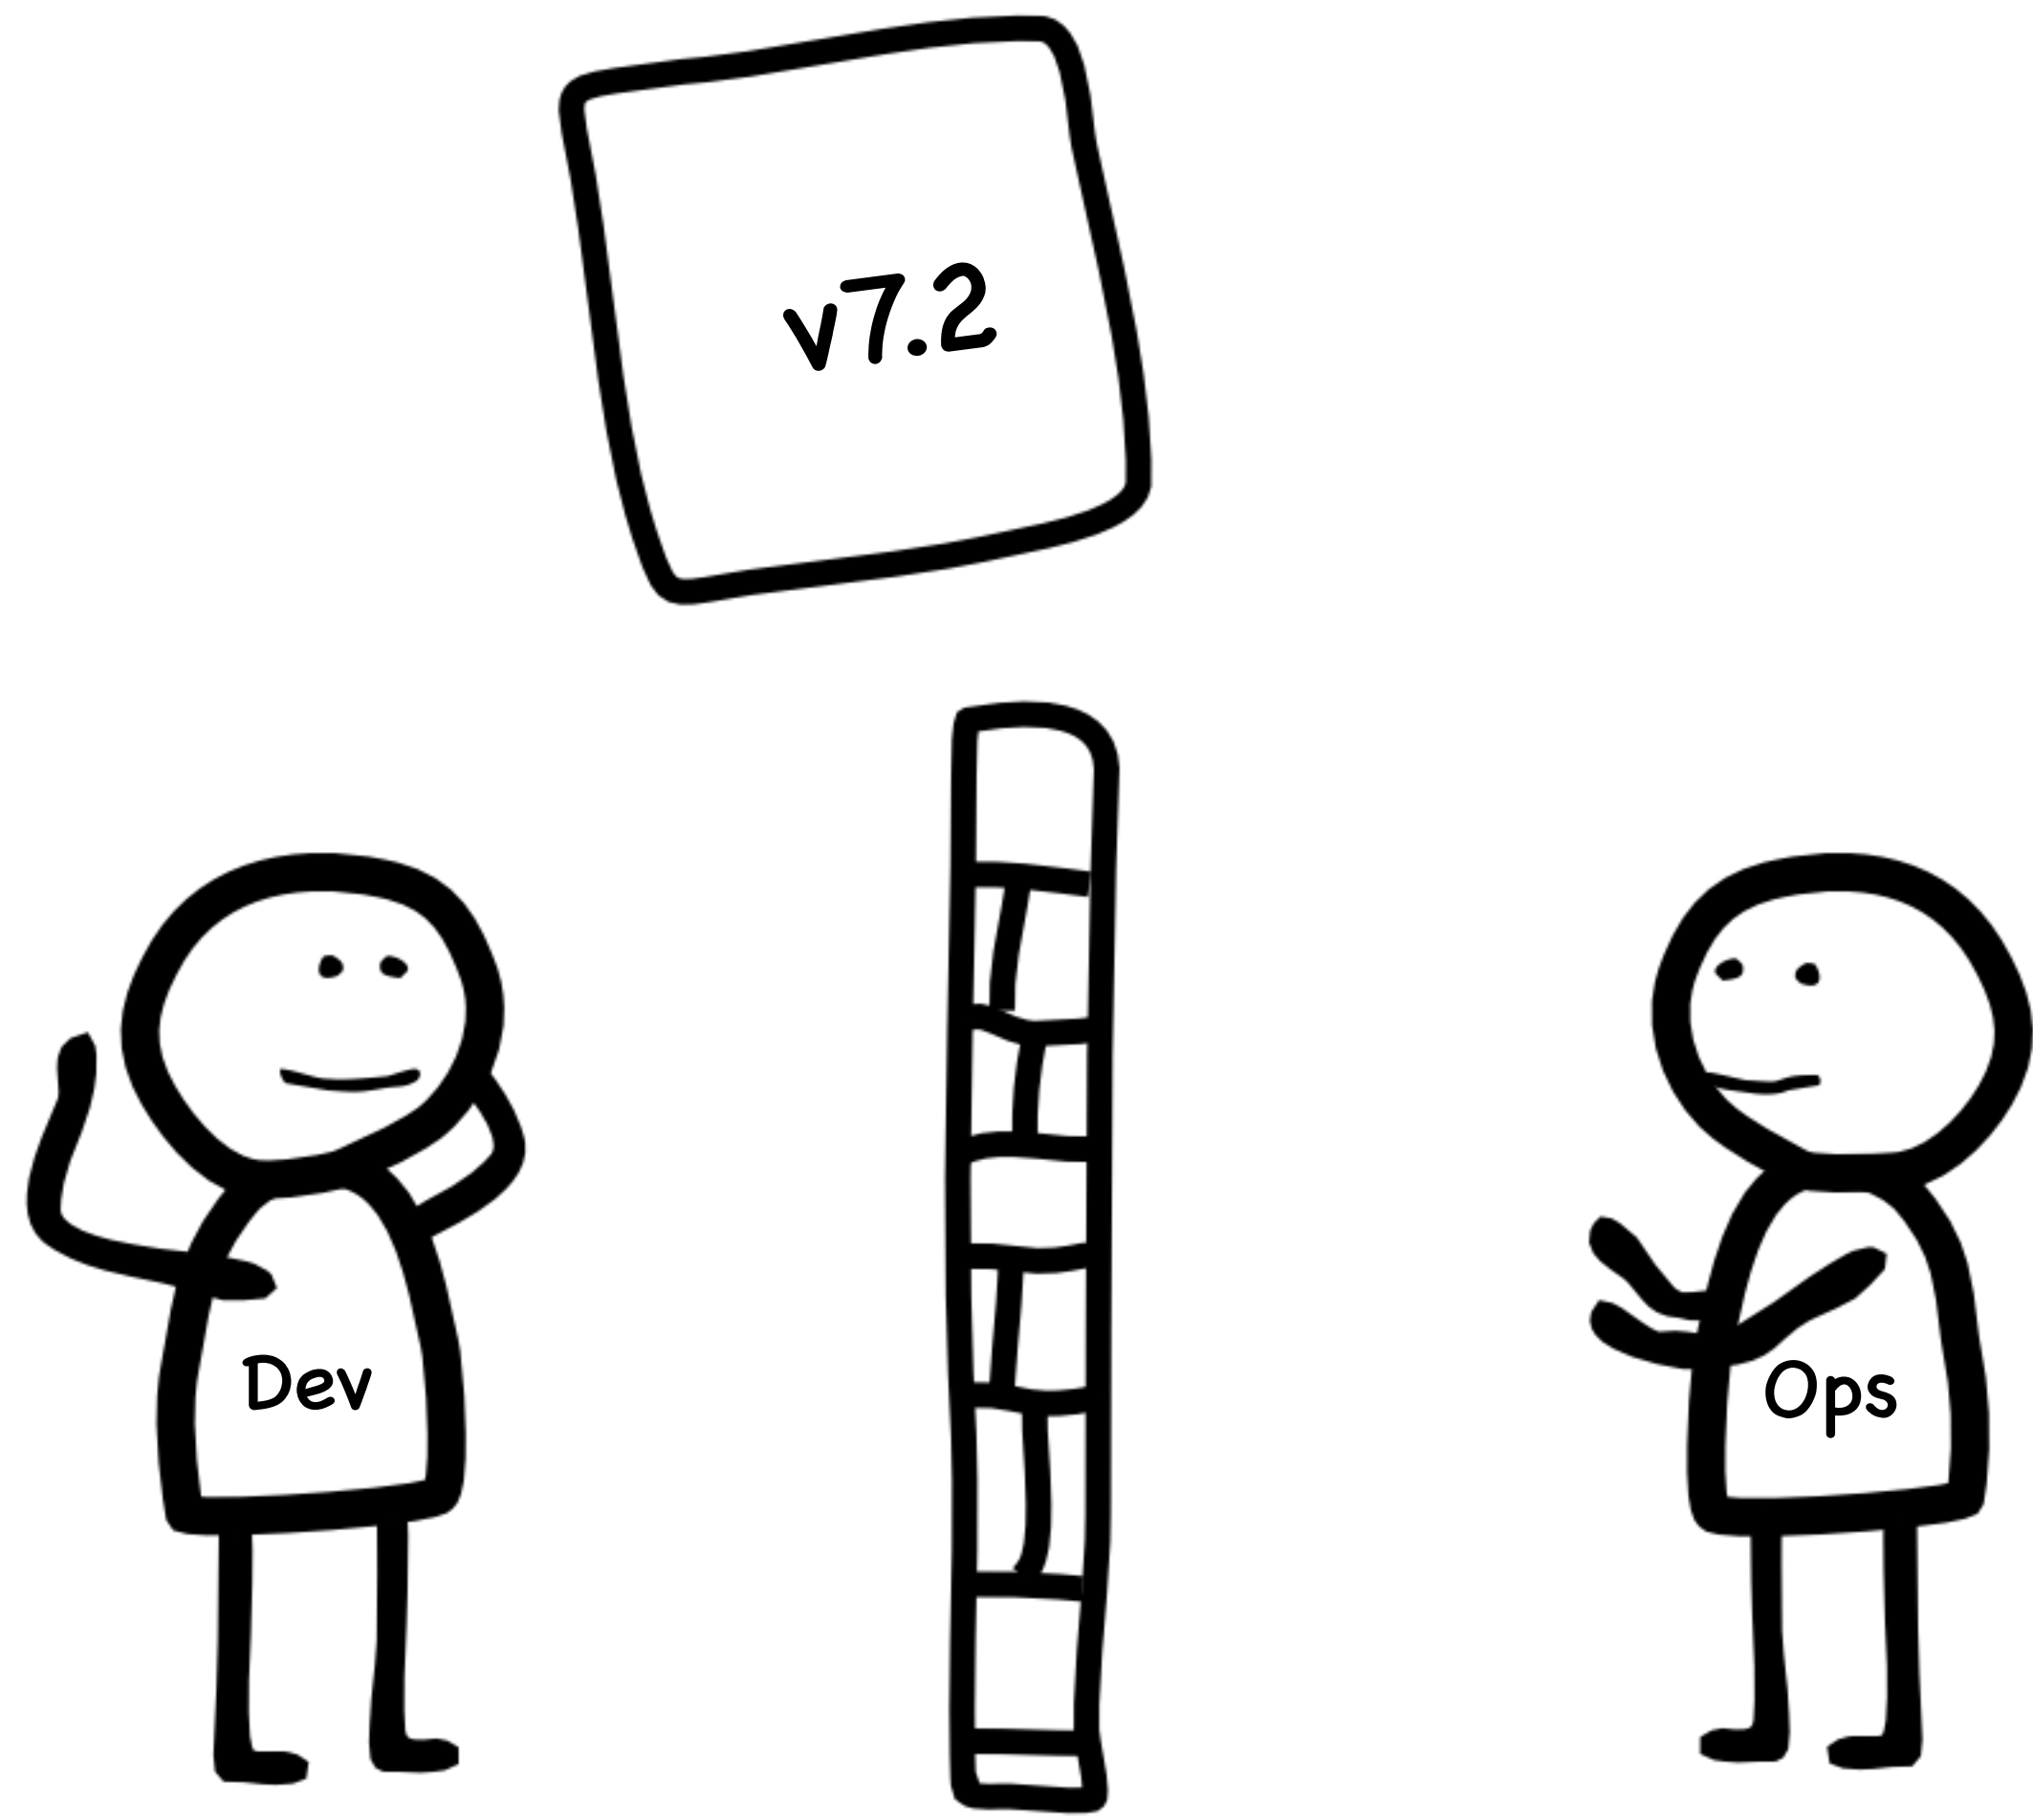

I am working on ...

Platform Engineering

Software Engineering

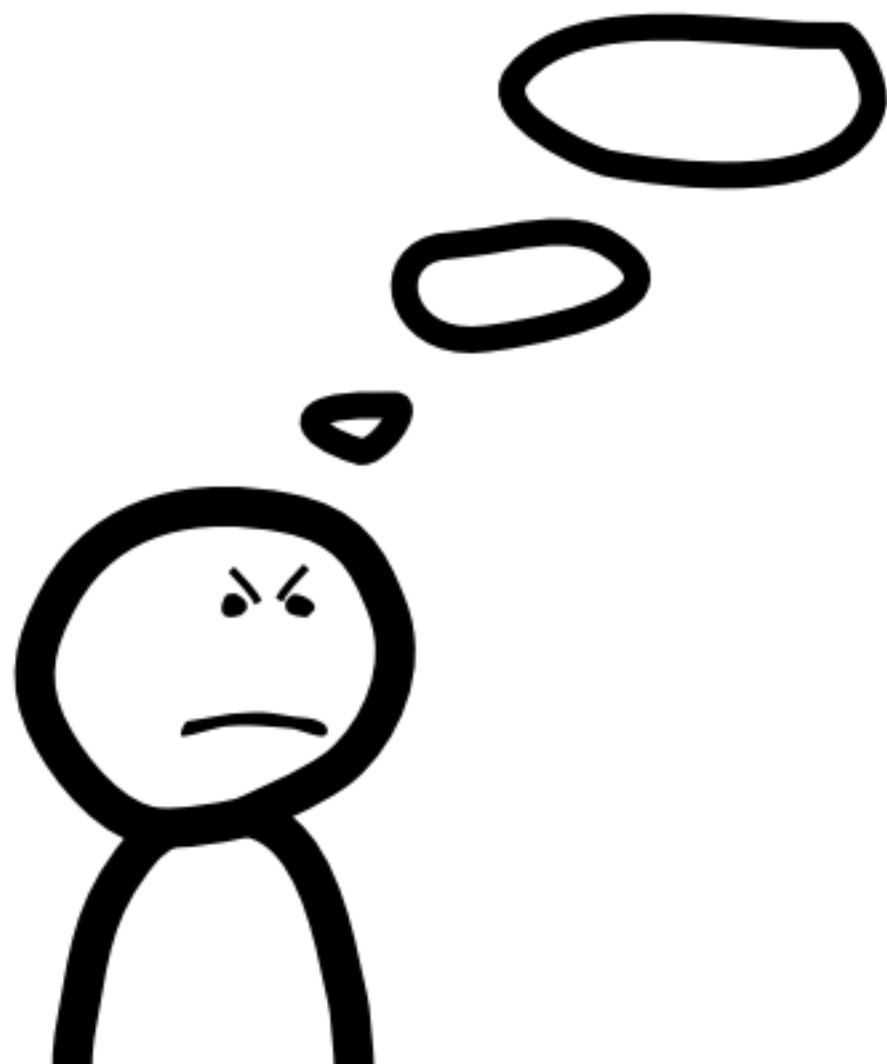

Engineering Culture

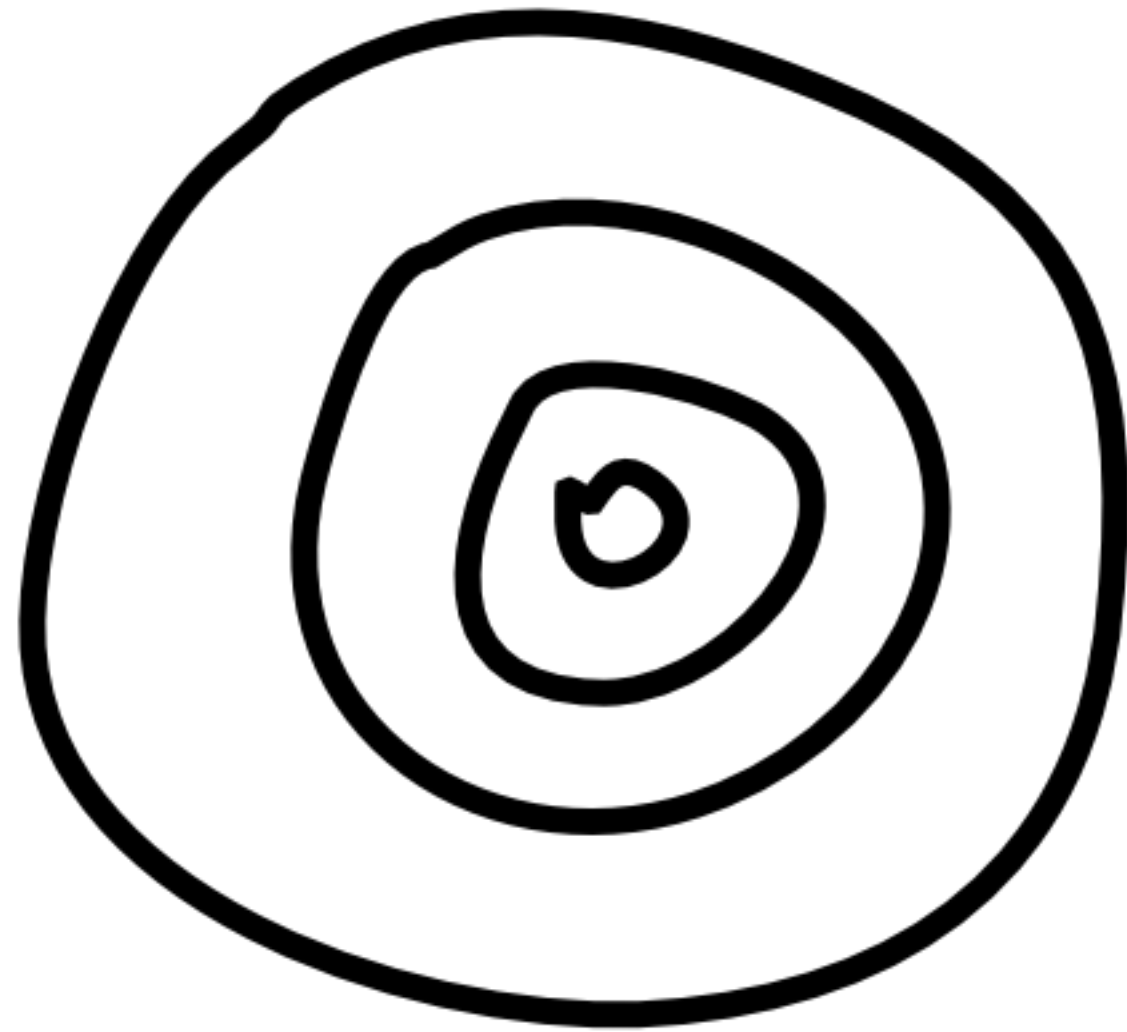

They screwed up the deployment gain ...
Why are they not able to upgrade ...

They didn't provide the correct config ...
The manual was not up to date ...

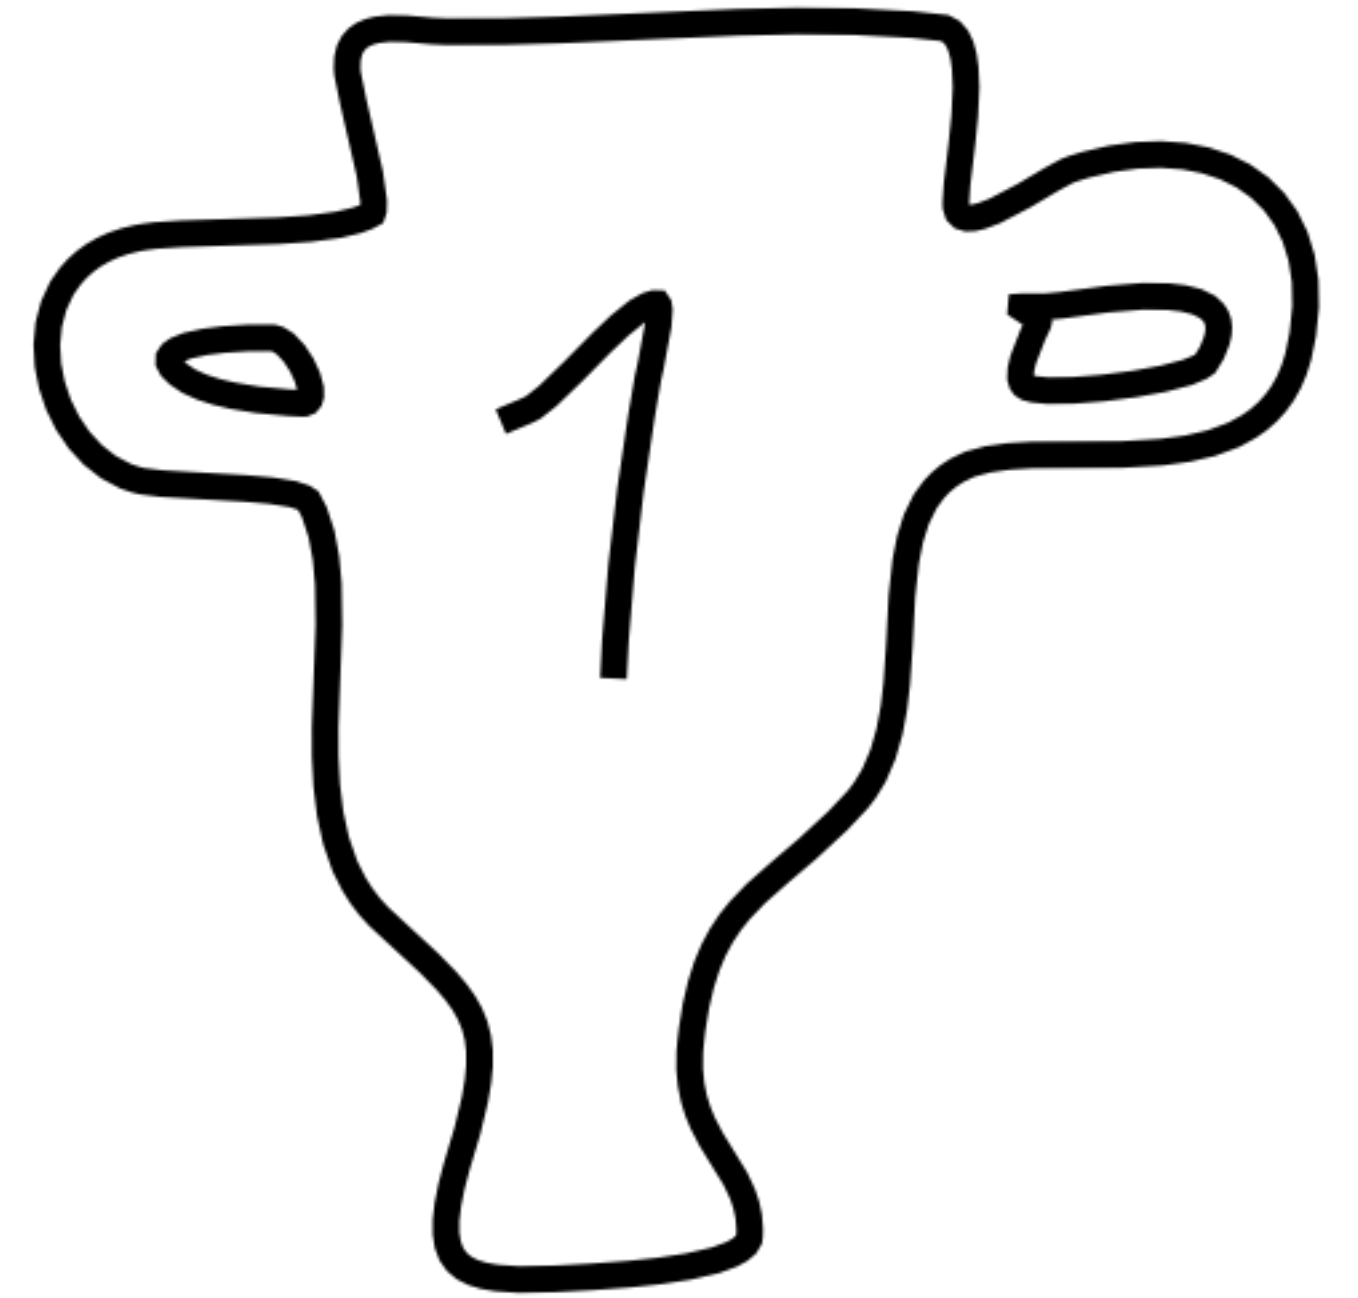

Targets

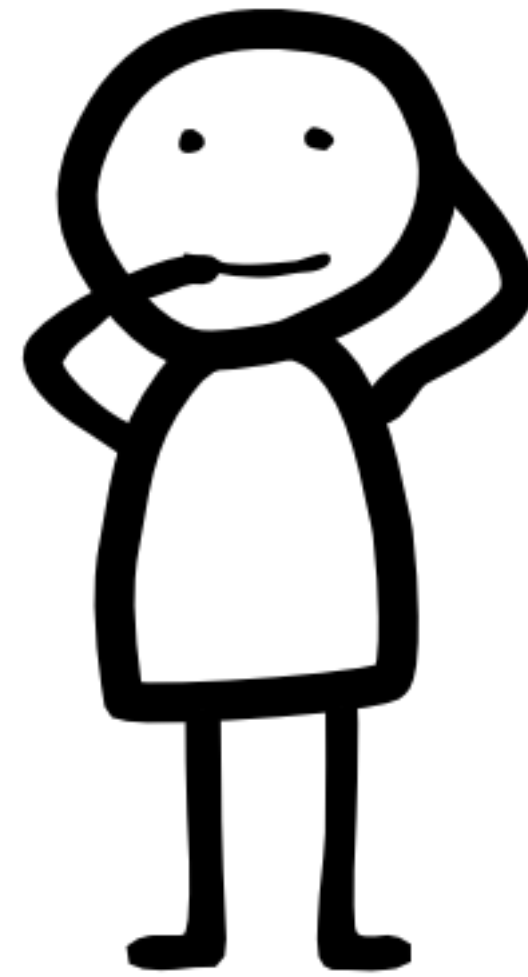

Walls & Silos

Incentives

„How can we fix it?“

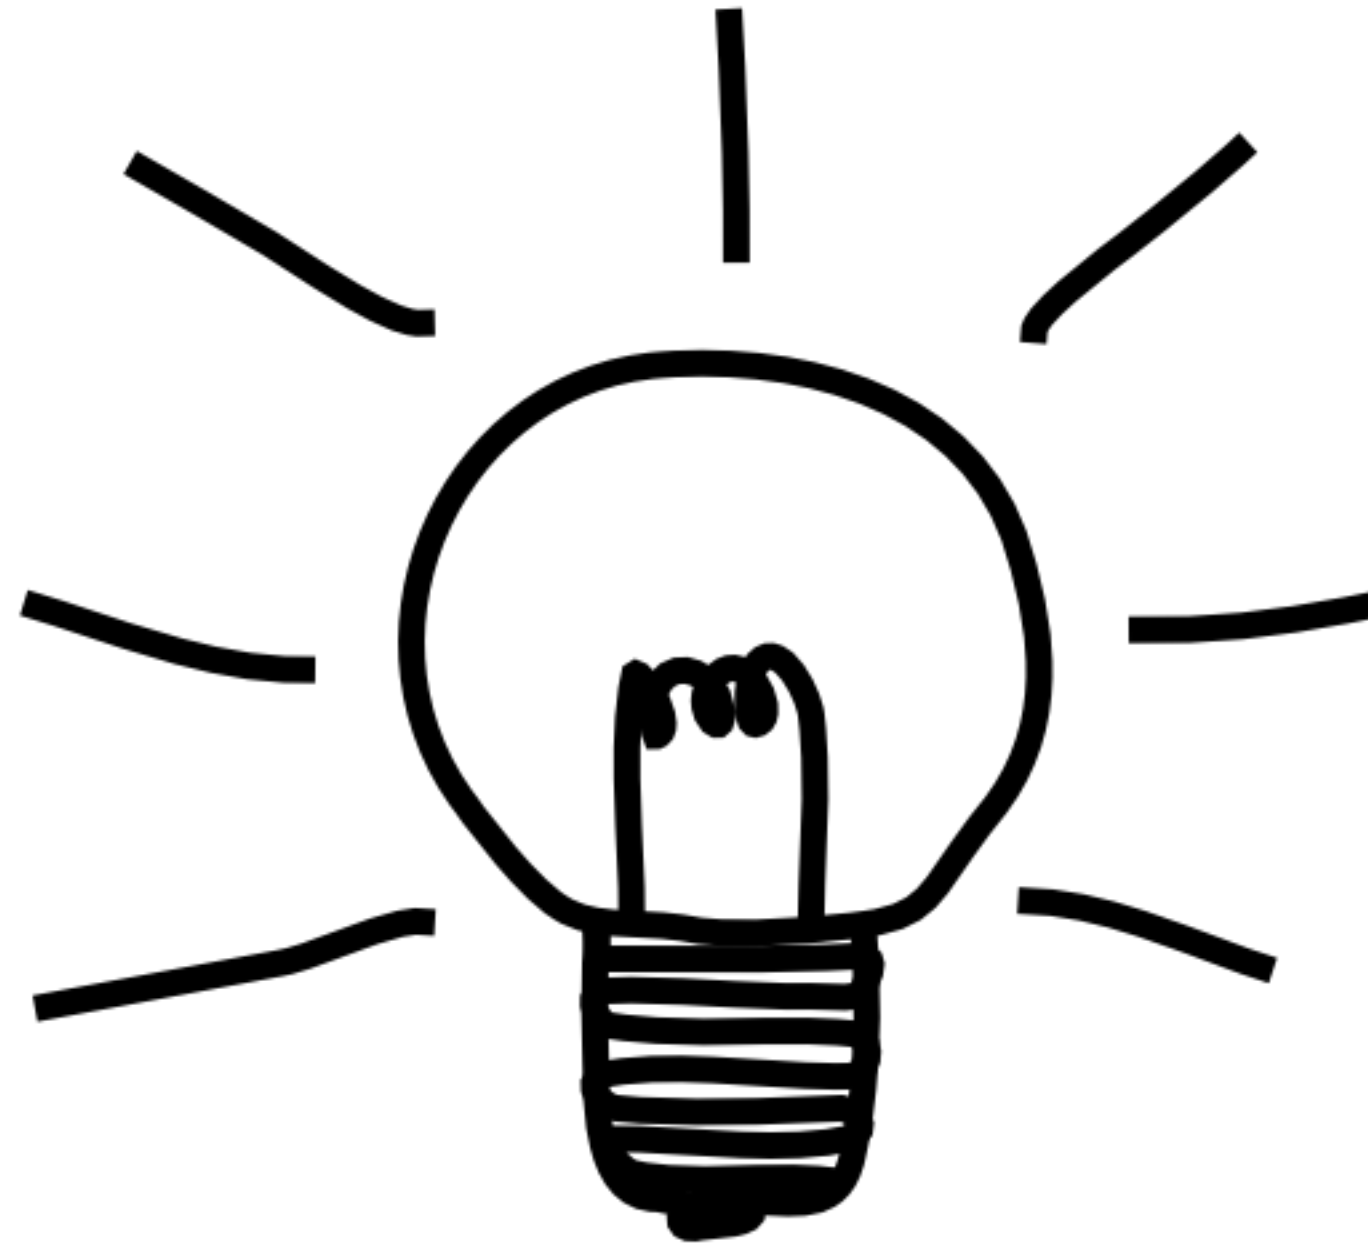

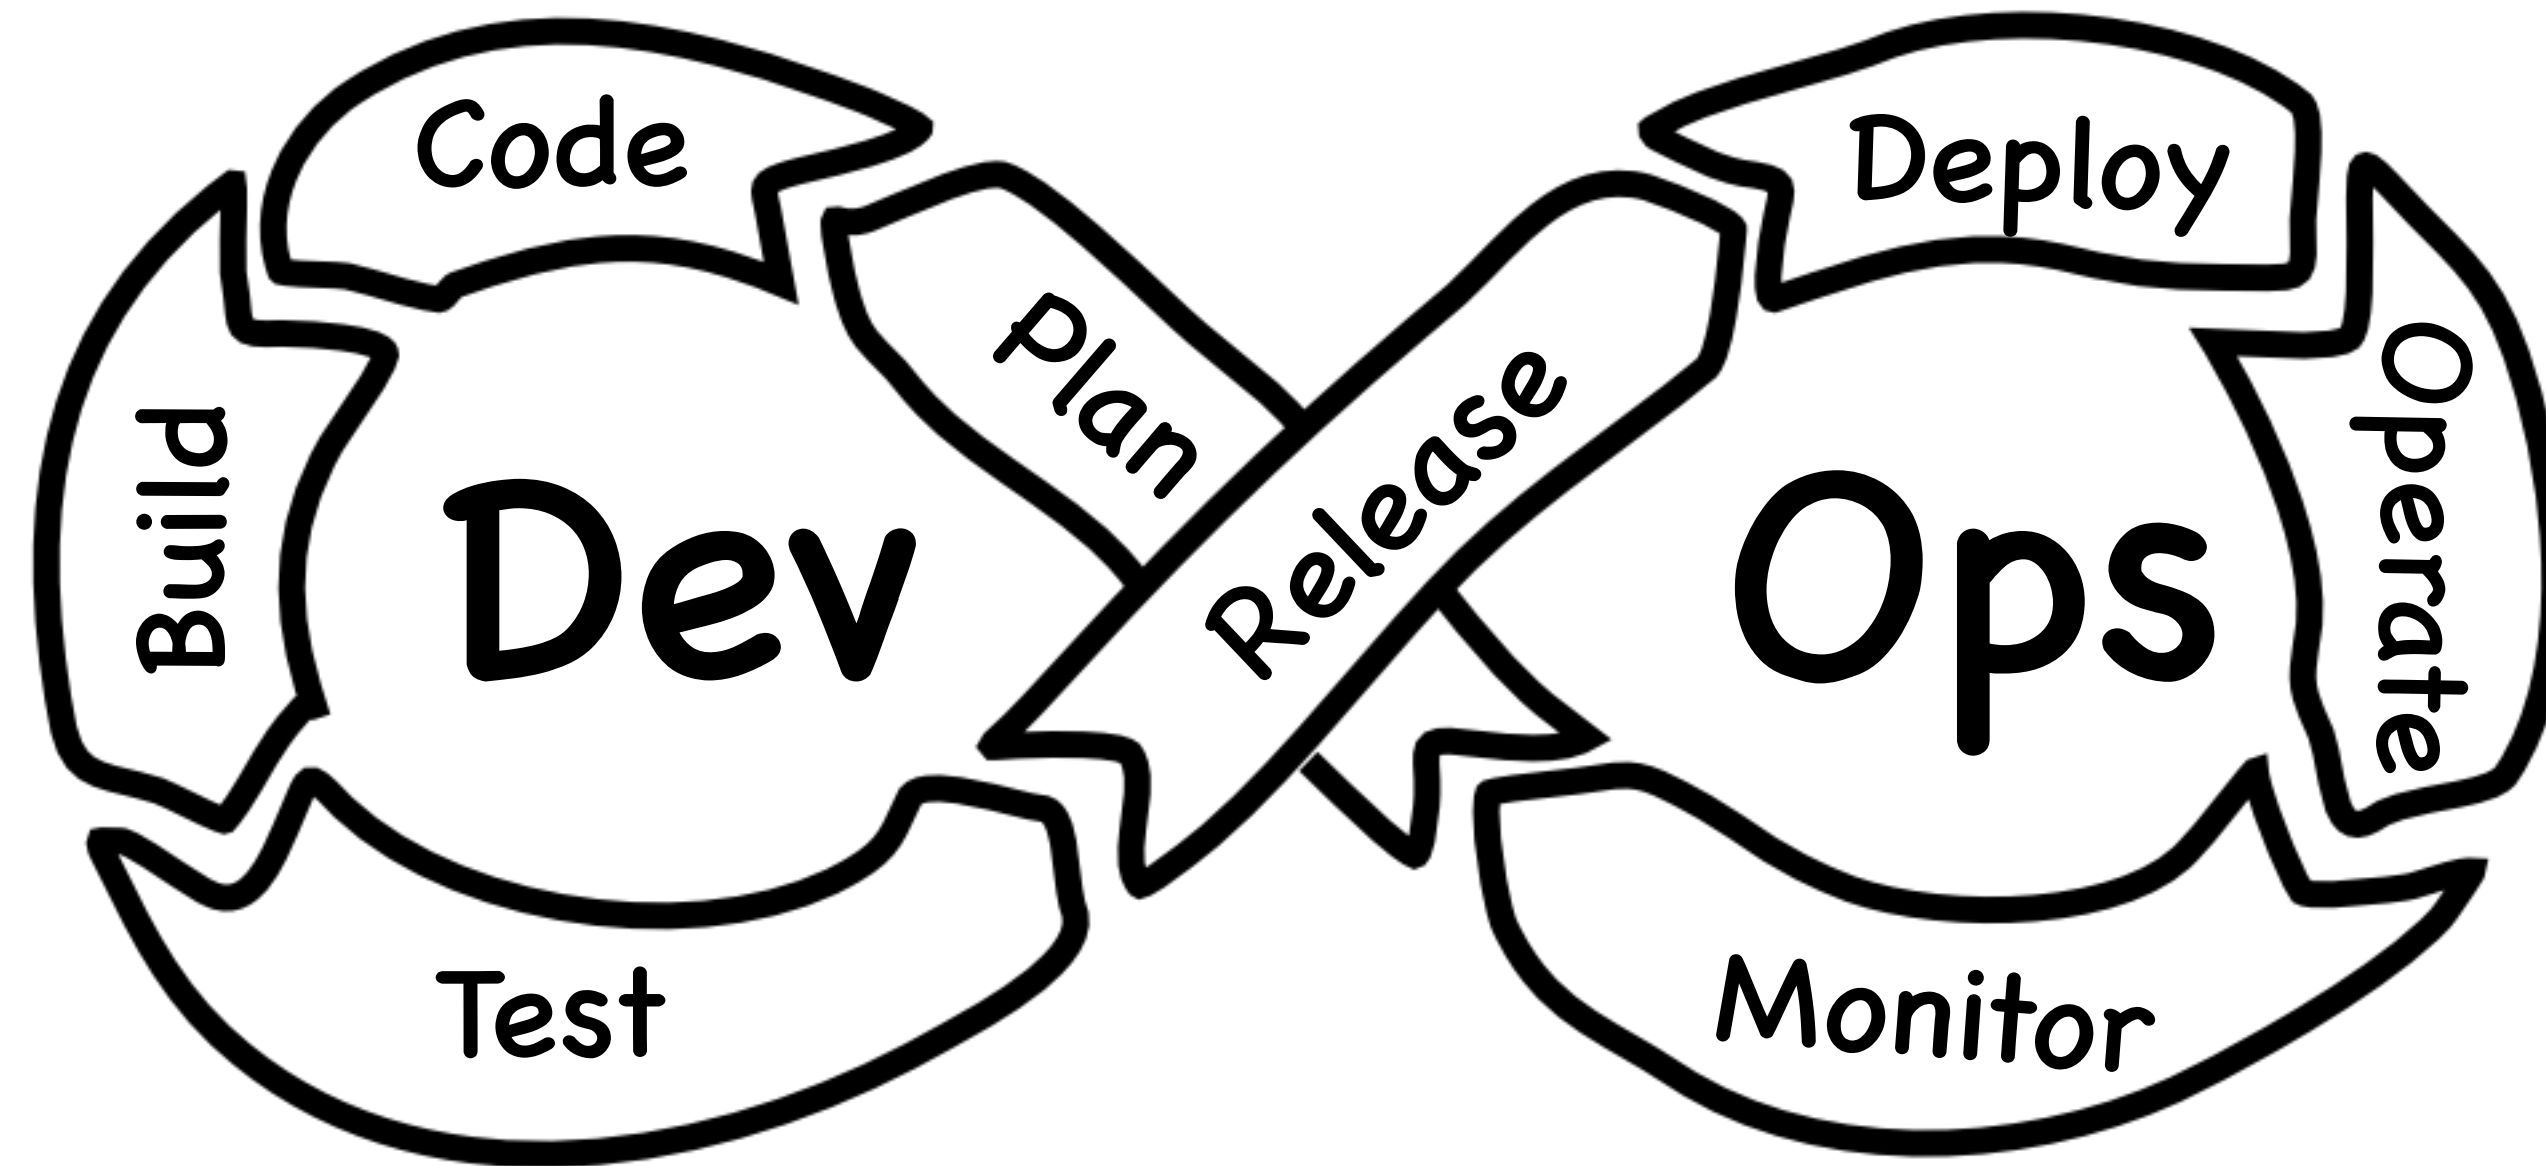

What we want ...

Speed

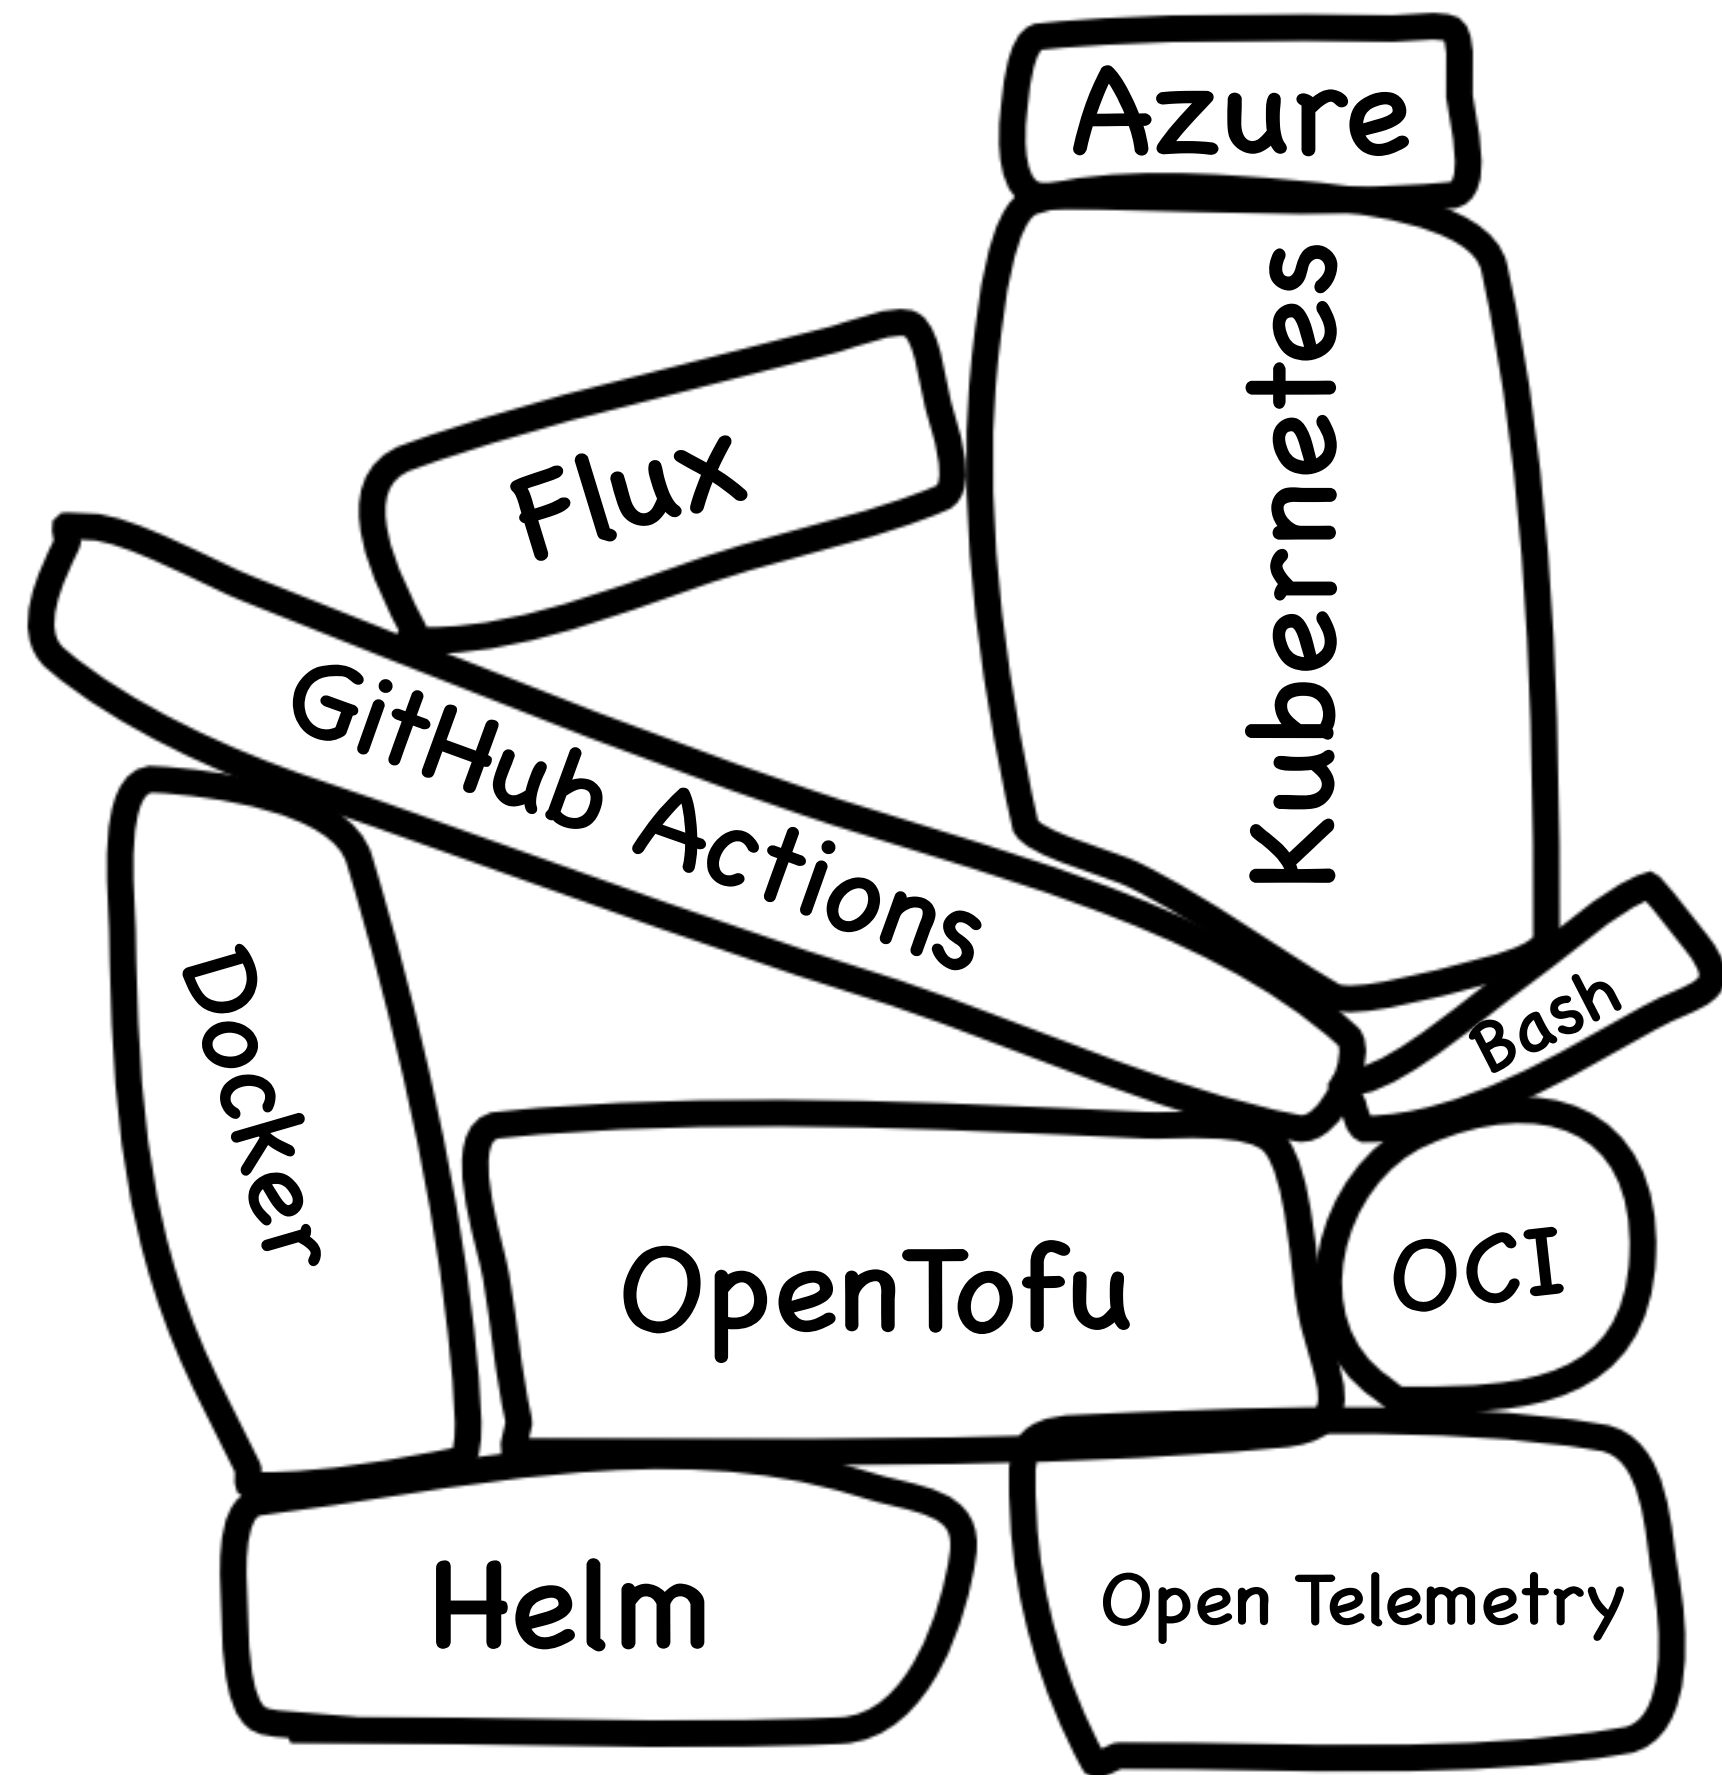

Predictability

Visibility

Tools, Methods, Culture

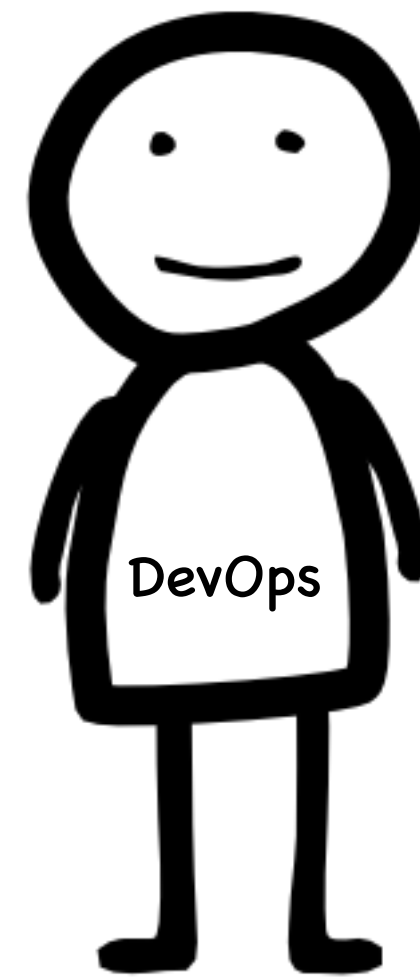

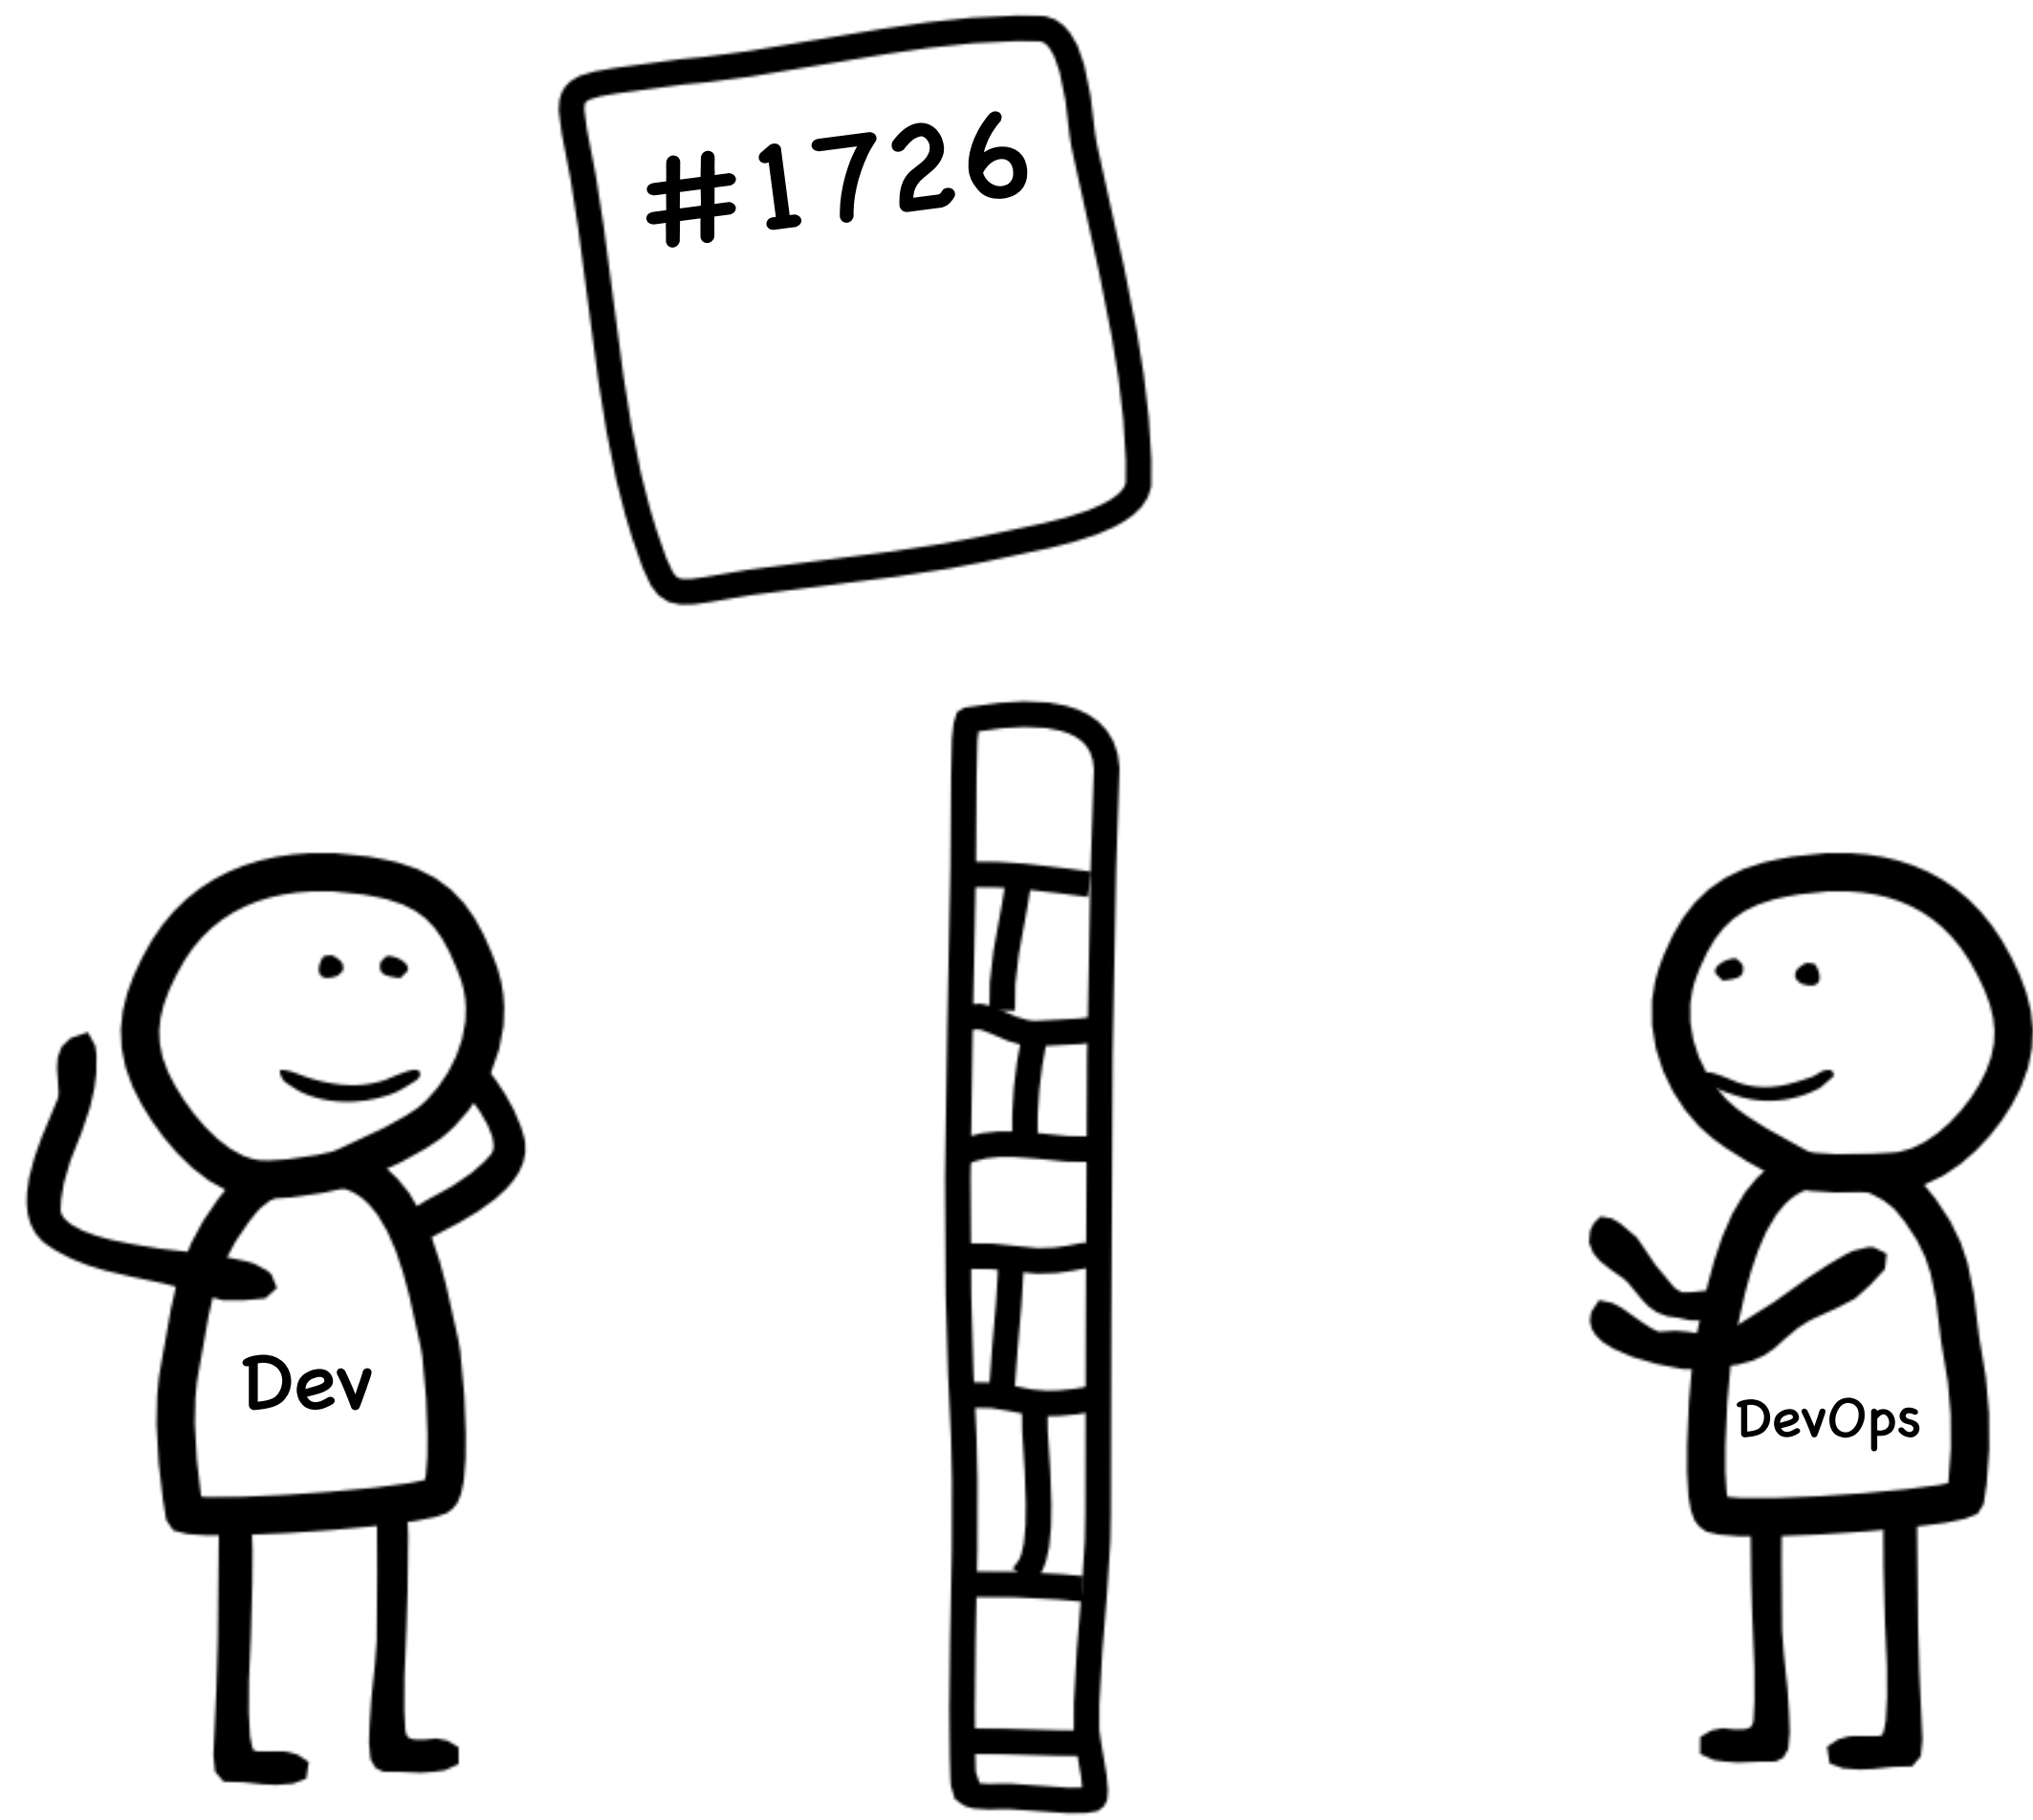

„Too, many things I never used or heard of ..“

Who can help me?

„I will take care of it.“

„What’s wrong?“

Tools, Methods,  Culture

DevOps is about ...

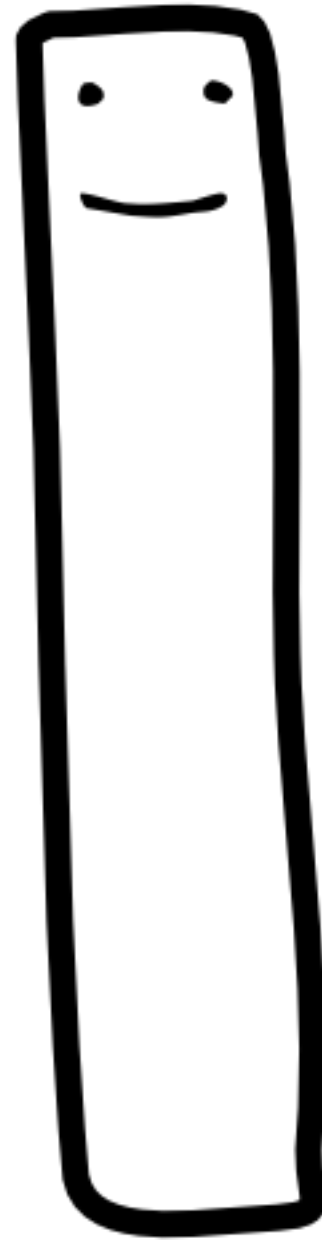

Close Collaboration

Open Communication

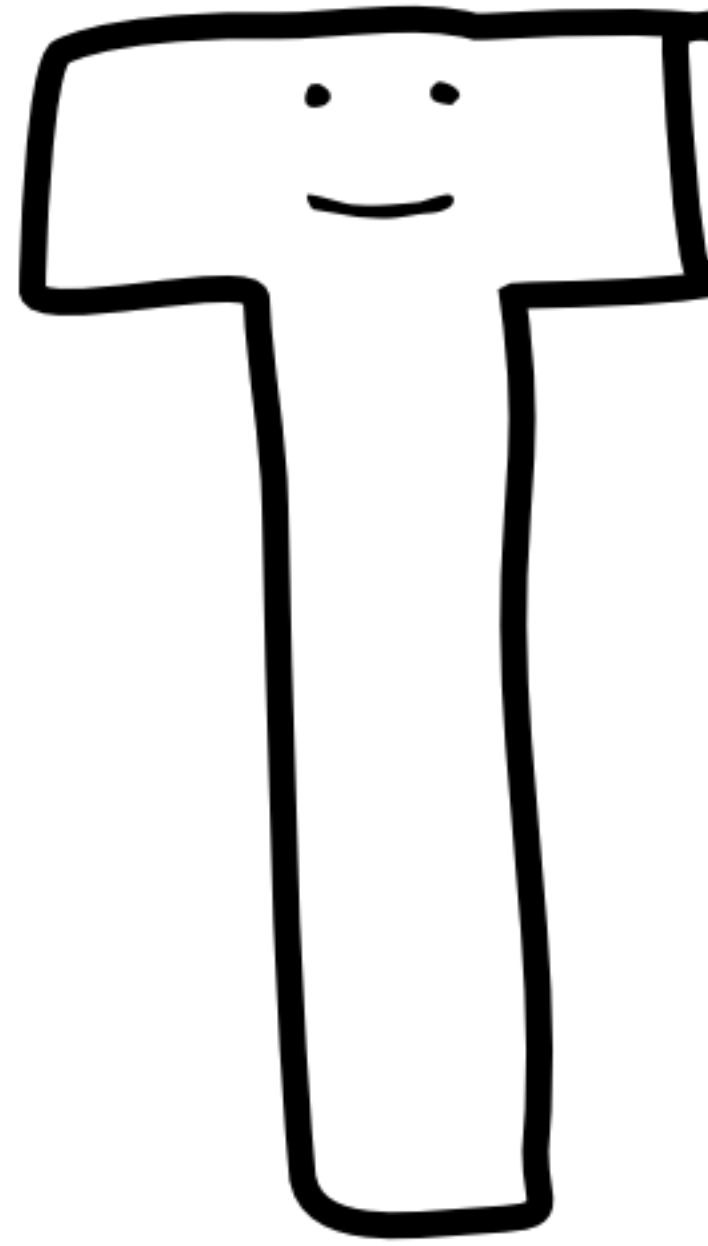

Shared Ownership and Responsibility

Collaborate and Grow

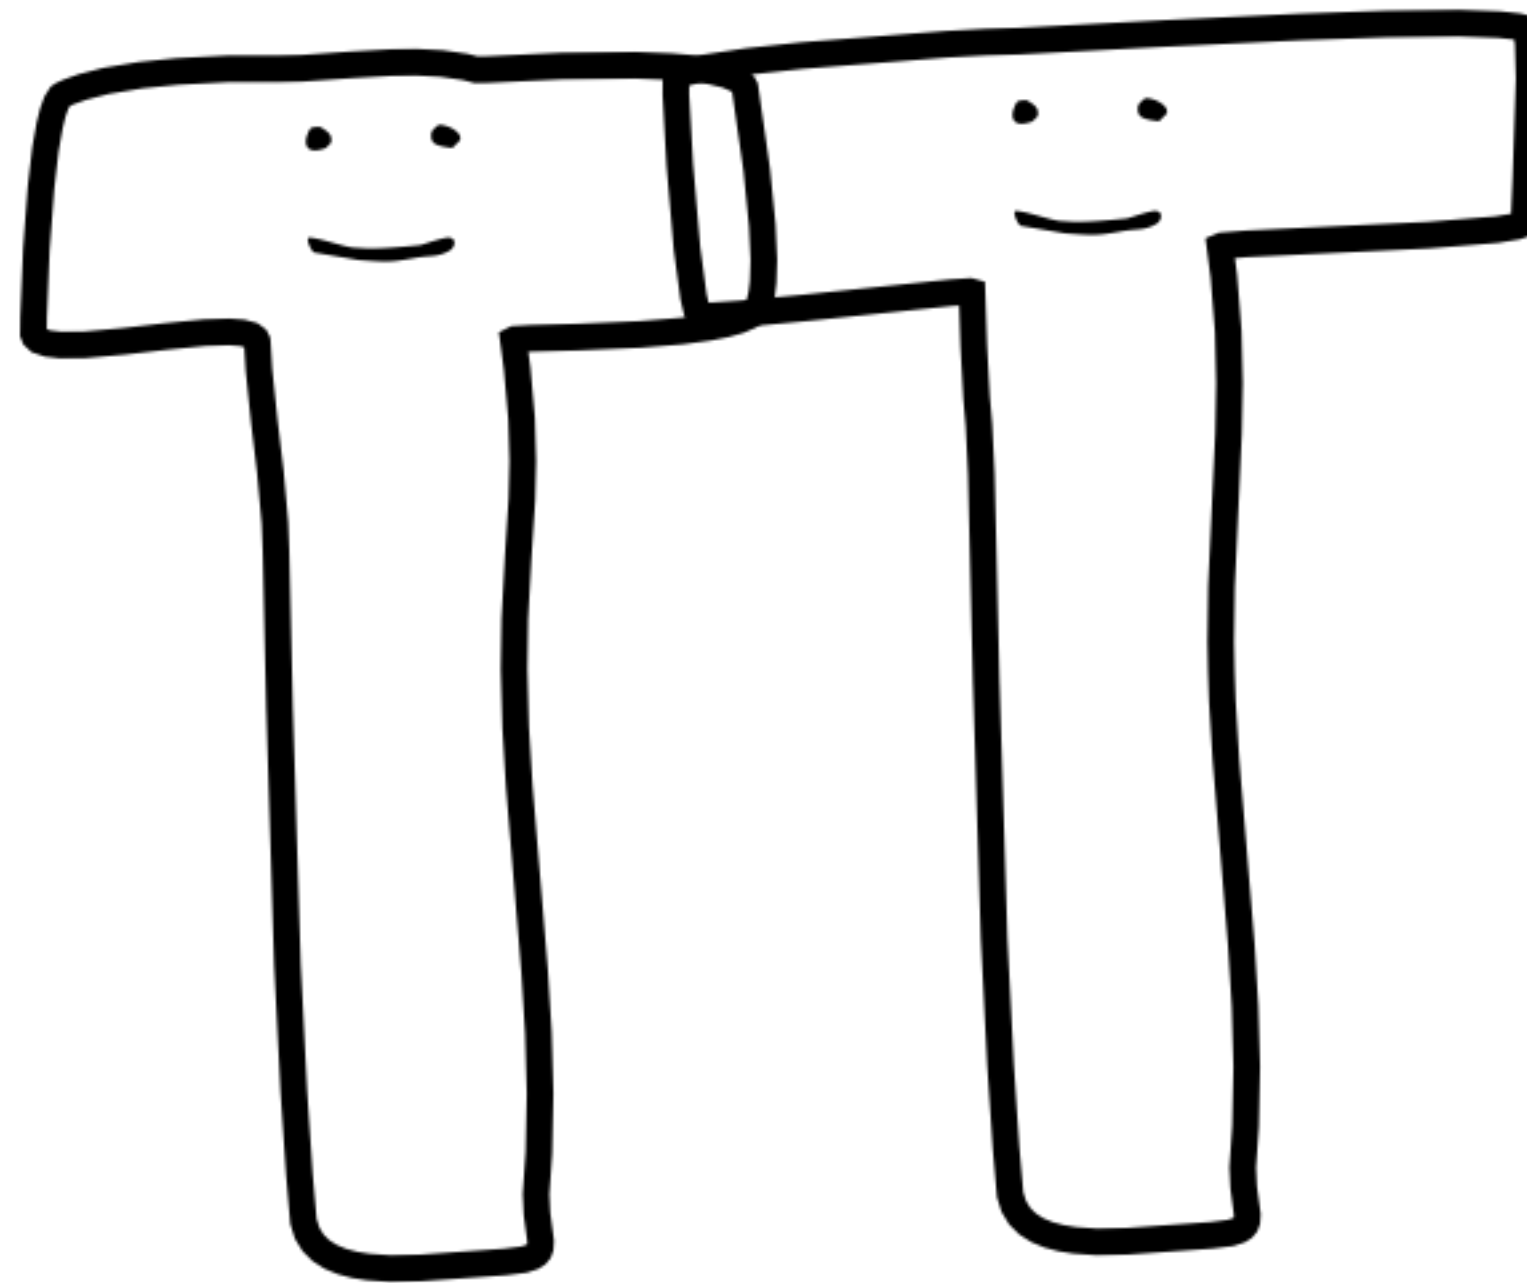

We need to evolve from ...

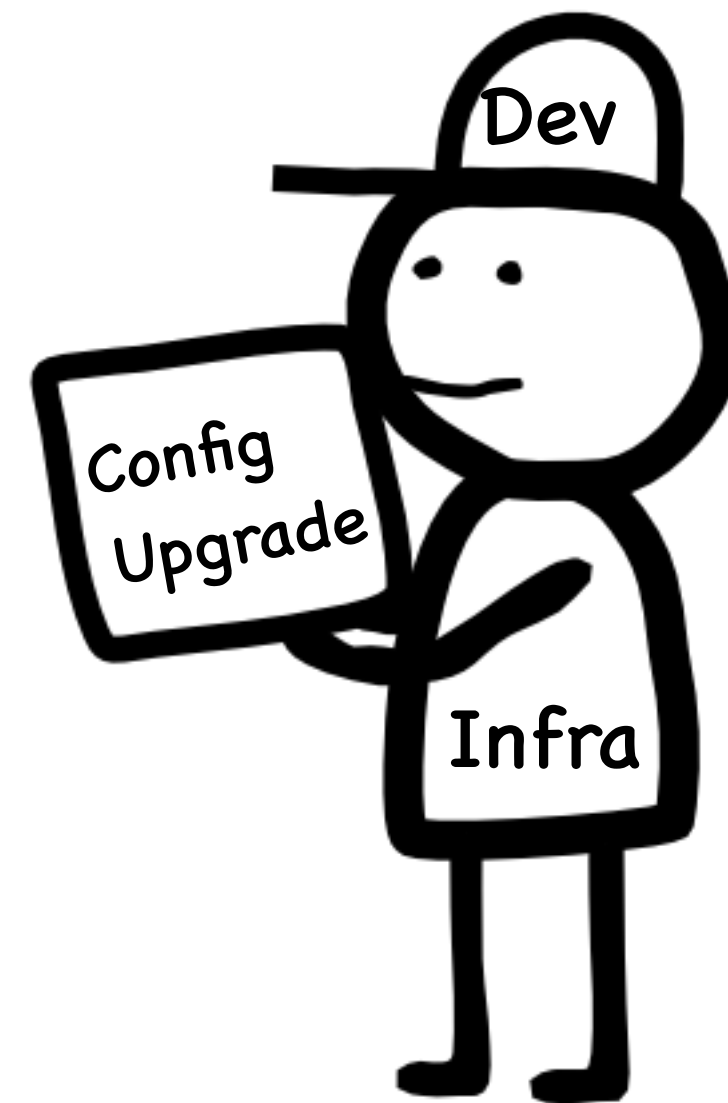

to ...

T's can easier collaborate

Take ownership

Be open and curious

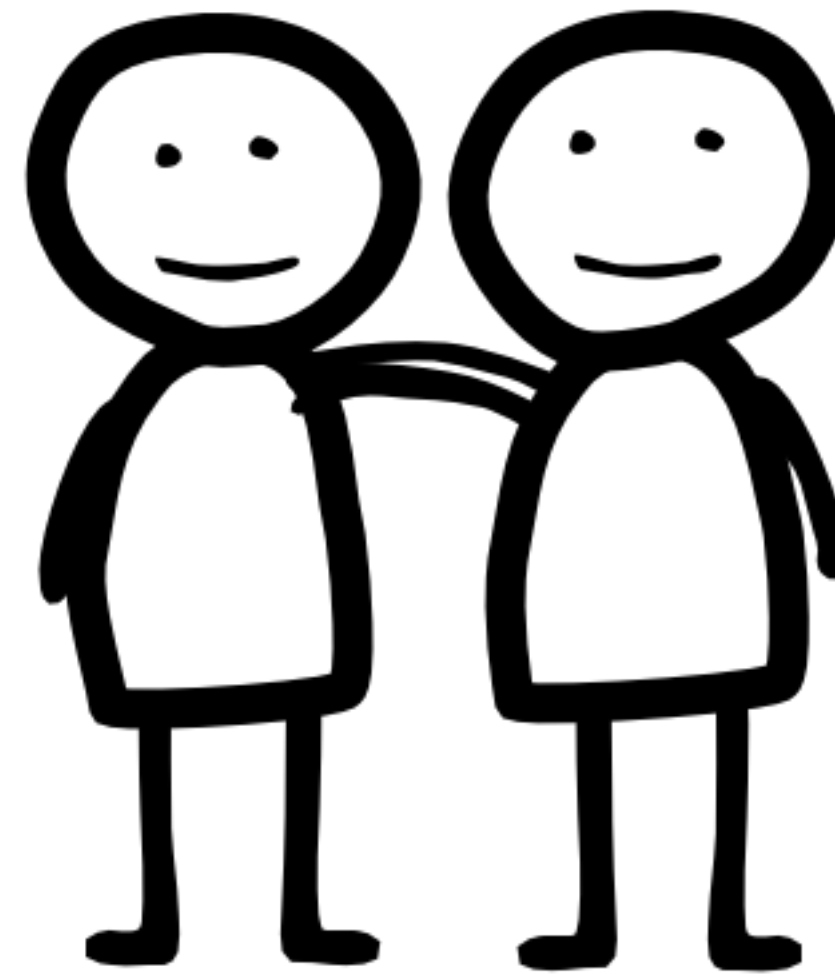

„I don't know how this works. Can somebody help me?“

OpenTofu

Single product team

„We build it, we run it, we own it!“

DevOps is a mindset

Thanks
